

Florianópolis, August 09, 2018.

According to the Office of Epidemiological Surveillance of the Health Department, the state of Santa Catarina (BRAZIL) **has no record** of active circulation of the **Yellow Fever** virus. The coastal area is not included in the Vaccine Recommendation Area (ACVR). Of the 295 municipalities in SC, 162 are in the ACVR, as a precautionary measure, as shown in the map below.
